

DATALOGGERS.NET.AU

**ACCESSING YOUR DUSTTRAK
DATA VIA ETM9900-1 MODEM**

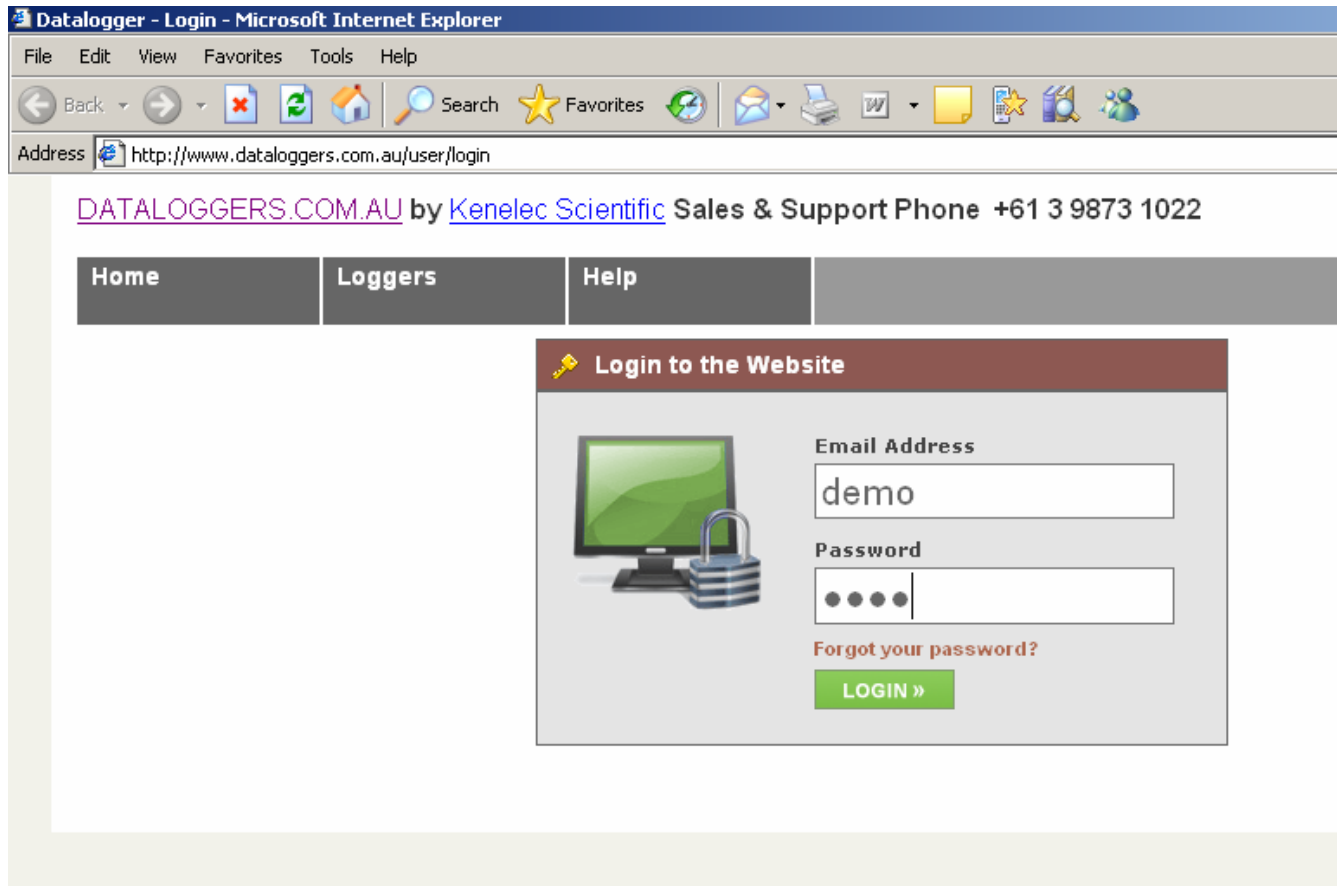

**Open up a Web Browser (Internet Explorer, Firefox etc)
Establish that you have web access (for example goto google.com)**

Now goto <http://www.dataloggers.net.au/>

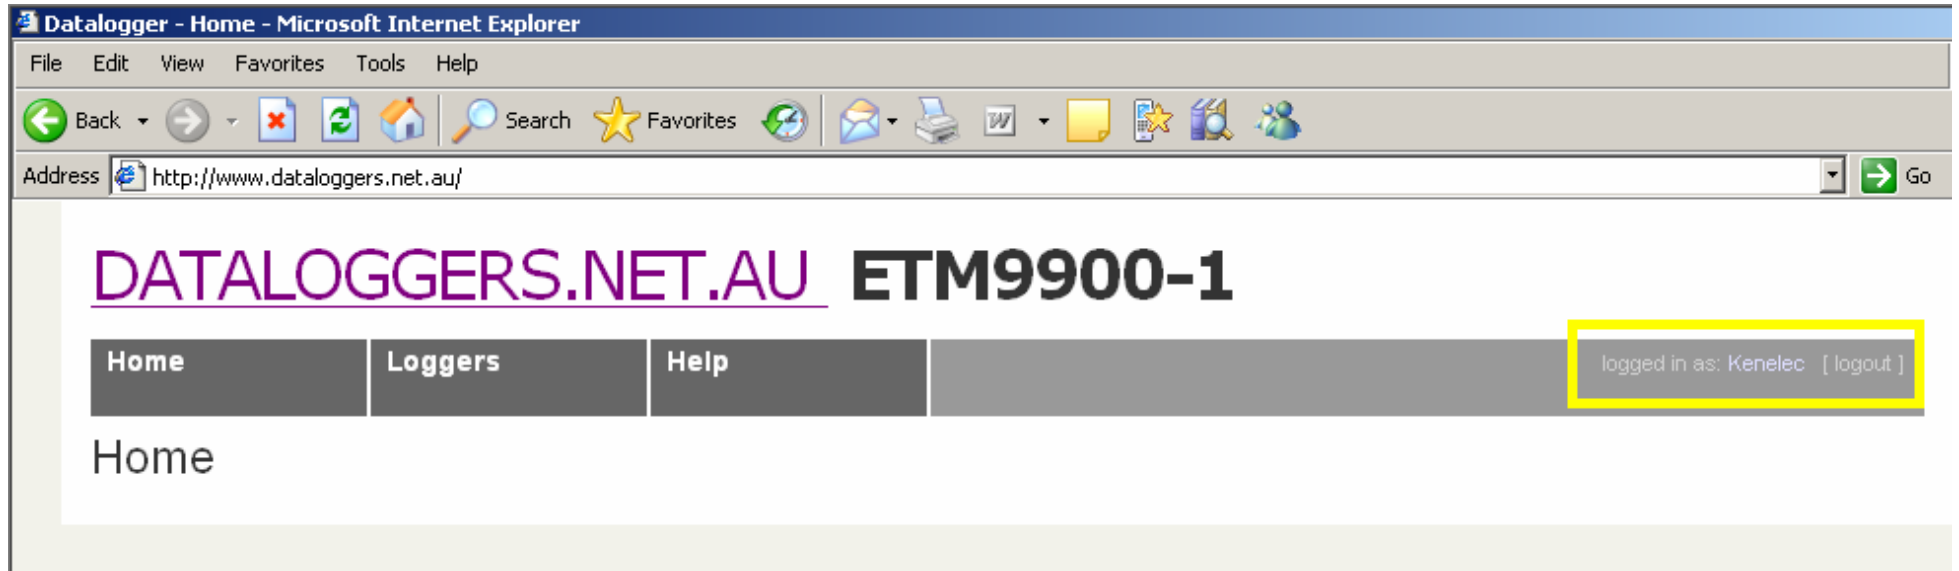

This login page will come up

**Enter demo as the Email Address and
Enter demo as the Password then click LOGIN**

Your Browser screen should now look like this

Note: Top right corner in yellow indicating who you are logged in as

If you can't login, two problems may be causing this to happen

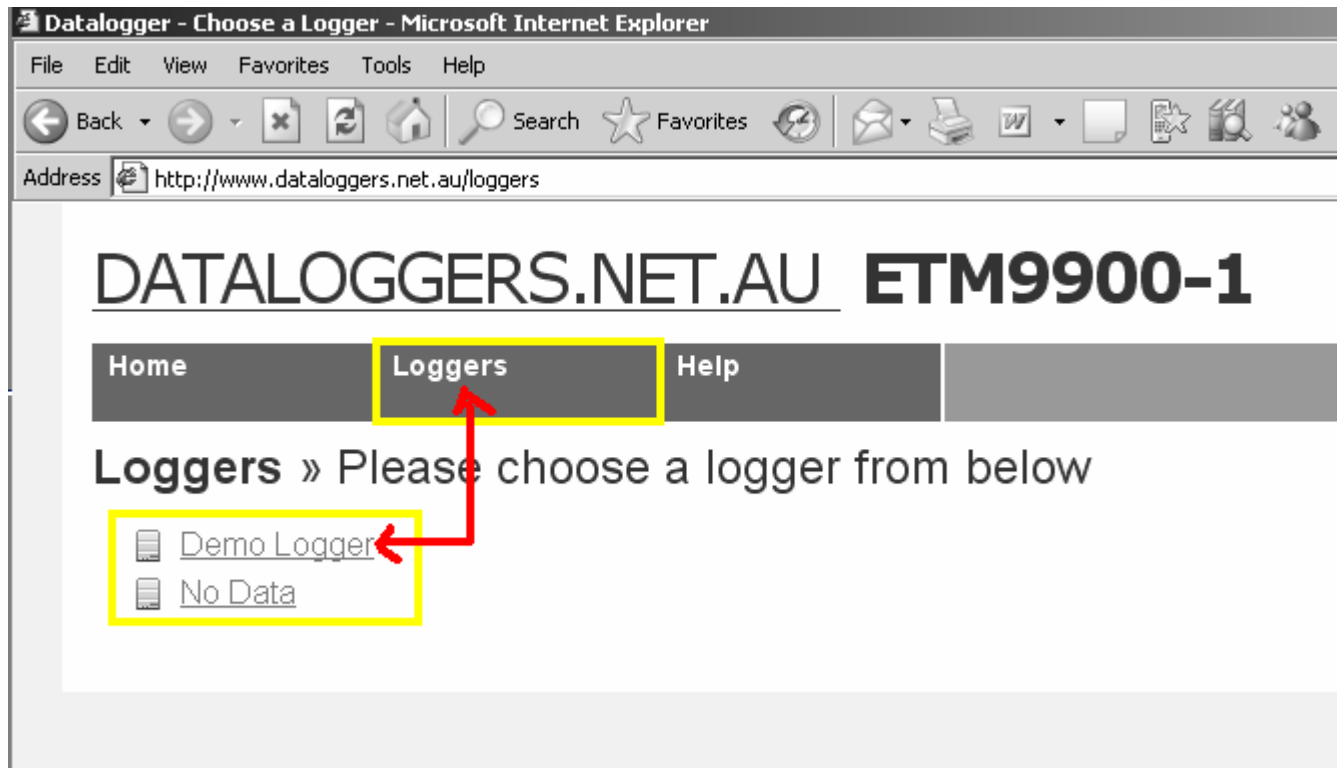

- 1. Cookies not enabled on your browser**
- 2. Your login details have been changed**

Contact Kenelec if you get stuck

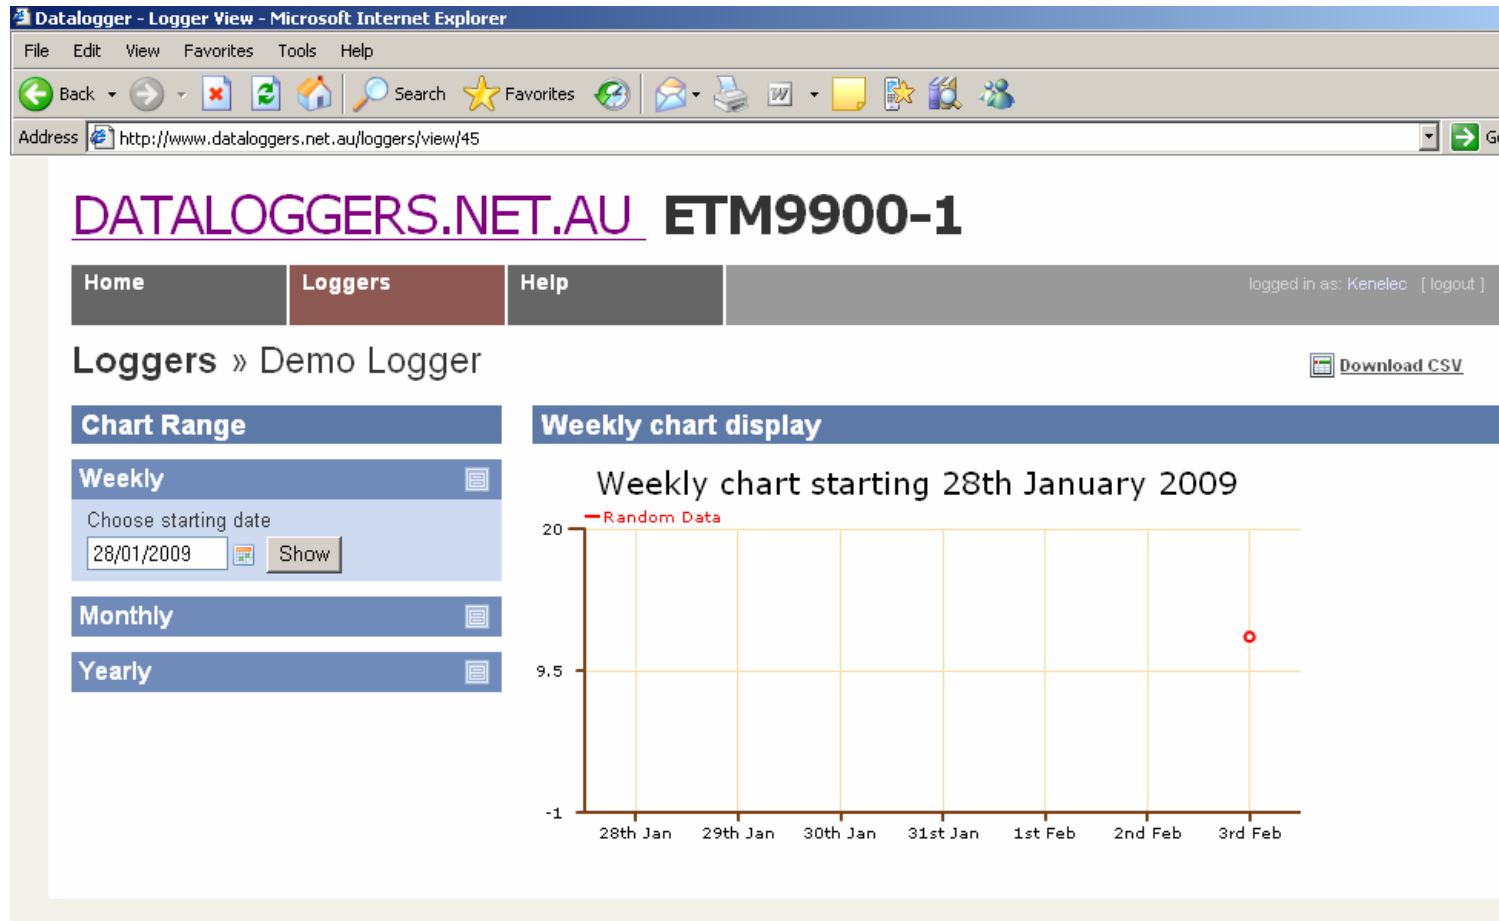

Phone 03 9873 1022 or Email stuart@kenelec.com.au

Click on the Loggers Menu
A selection of Loggers will come up

For demonstration purposes click on “ Demo Logger “

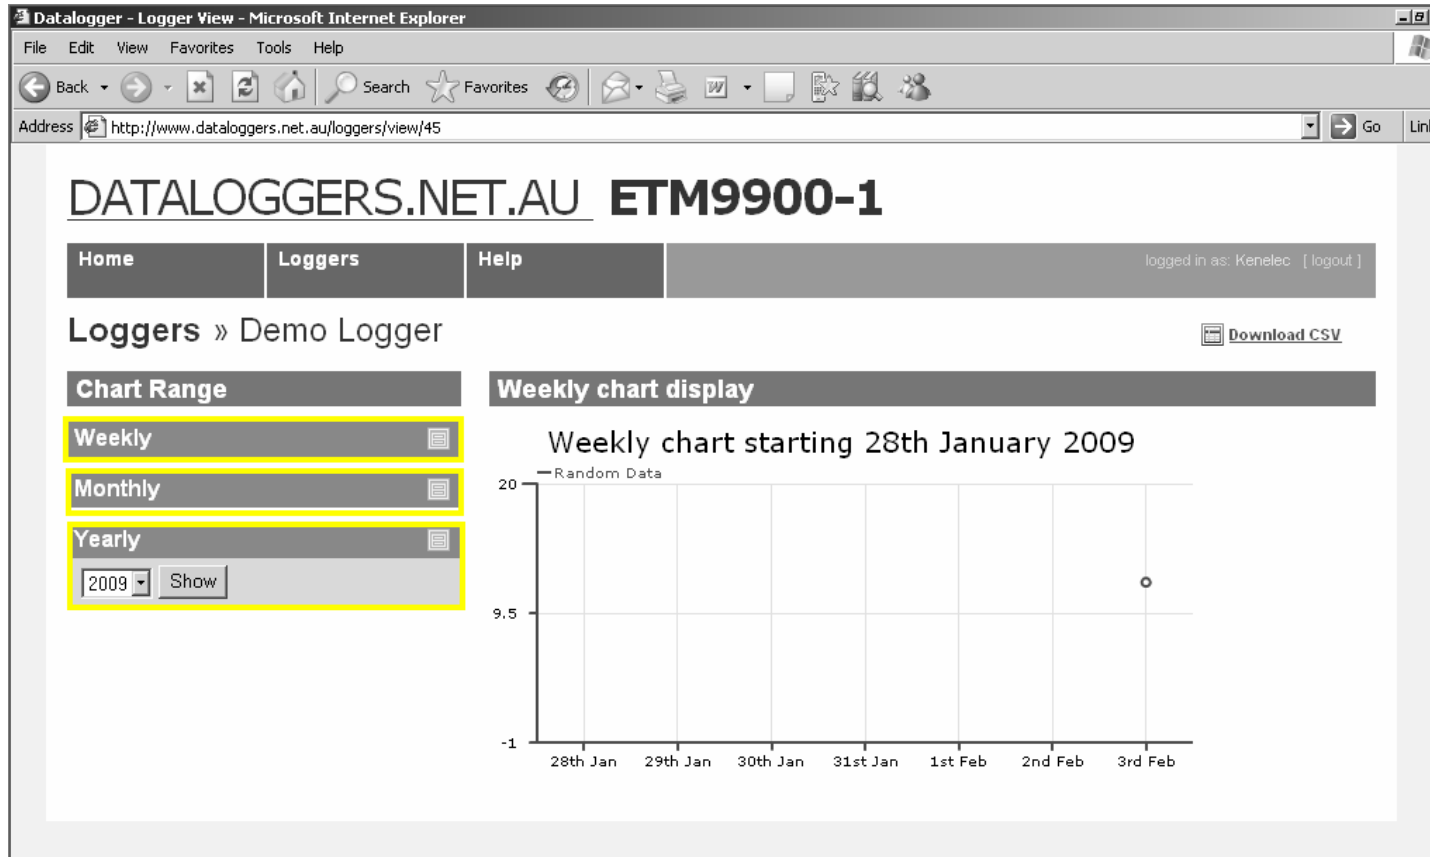

The following screen should come up
This is the default view Weekly

There are three view modes

To select a mode click on either Weekly, Monthly or Yearly

The screen below shows Yearly selected

This example shows how to view monthly data
From the drop down box select the desired month and year
then click SHOW

To view weekly data follow the image below for instructions

Chart Range

Weekly 

Choose starting date

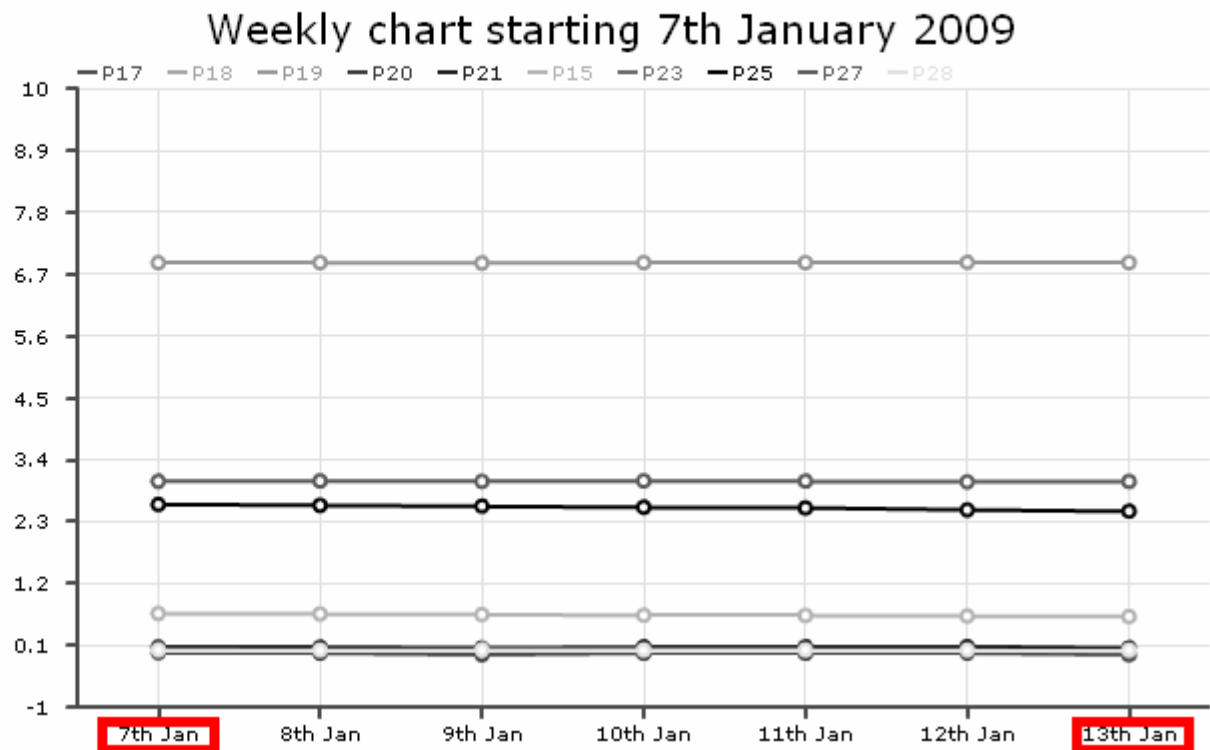

07/01/2009  Show 

Monthly 

Yearly

M	T	W	T	F	S	S
29	30	31	1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31	1

Weekly chart display

Downloading data to your PC (CSV / Excel Compatible)

First you need to be logged in and either viewing Weekly, Monthly or Yearly Data
You can either left click or right click on the “ Download CSV “ button top right

What happens next will vary with different computers and browsers

Typically left click will view this file (so you will still need to say SAVE AS in Excel)

Using right click and selecting “ Save Target As “ is a better option as it prompts you for a name and location to store your data

Below the left example is Right Click from Internet Explorer

Below the right example is Right Click from Mozilla Firefox

For additional help contact your IT department

DON'T FORGET TO BACKUP

Backups are provided for the courtesy of the subscriber. It is the sole responsibility of the subscriber to maintain their own backup of any data. Kenelec Scientific Pty Ltd is not responsible for lost data.

Its good practice to open and check all downloads / backups to establish that you do in fact have the data you are expecting

PLEASE NOTE:

You data is send to several places before its appears on this website.

So there is several reason why it could fail. If your data is very important we suggest you also enable a log mode on your logger / DustTrak system as a additional backup.

Possible Reasons why you are not getting any Data

The DustTrak is not running (Contact Kenelec Scientific)

The Analog Cable is not plugged form the DT into the modem (Contact Kenelec Scientific)

The modem is off or the SIM card has been cancelled (Contact Telstra)

Telstra are having NEXTG internet issues (Contact Telstra)

Our Server is down or having Issues (Contact Kenelec Scientific)

There maybe a hardware fault (Contact Kenelec Scientific)

Kenelec offer this service to alot of our customers so the system is monitored constantly.

If all else fails give us a call or email (Ask for Stuart)
